**Academic Research for Year Wise | Subject: IoT | Discipline: Embedded Systems**

### 1. Introduction

The objective of this study is to leverage the Bayesian network advancement necessary for the efficient detection of network anomalies, including those of security-related incidents. This research focuses on testing frameworks, including testing and threat analysis. This paper is useful for training and validating the Deep Neural Network (DNN) model as subsequent trials.

### 2. Problem Set

✓ To establish a suitable Bayesian network (BN) simulation environment to simulate IoT network traffic. The environment will be used to analyze the network traffic, including threat analysis, and threat attacks, which are essential to building the model.

### 3. Background (State of the Art)

- **Bayesian Network** is a probabilistic graphical model used for modeling uncertainty in data.
- **Bayesian Network** is a probabilistic graphical model used for modeling uncertainty in data.
- **Bayesian Network** is a probabilistic graphical model used for modeling uncertainty in data.

### 4. Conclusion

The study concludes that the Bayesian network model is a suitable tool for modeling network traffic and detecting security threats. The model can be used to analyze network traffic and detect security threats. The model can be used to analyze network traffic and detect security threats.

Completed by CHARVI JAIN (RA2...

The screenshot shows a completed progress report for a project titled "Project Management". The report is displayed on a grid background. At the top, it says "100% Progress Report". Below this, there are several sections with blue headers, each containing a table of data. The sections are: "Project Overview", "Project Schedule", "Project Budget", "Project Risk", "Project Communication", "Project Performance", "Project Quality", "Project Security", "Project Compliance", and "Project Conclusion". Each section contains a table with multiple columns and rows of data. The "Project Conclusion" section at the bottom right has a green checkmark icon. At the bottom left, there is a small icon of a person and the number "2". At the bottom center, it says "55 Completed by SHAURYA SRINET ...".
